*These are suggested regions as a starting point for discussion.*

Regions 2, 3, 5, 6, and 8 are already fairly settled. I've heard New Hampshire express disapproval with its current region, but the rest of the northeast will likely stay together. The remaining states could form their own region, or a subset of them could enter into a regional agreement with region 6 (if it has over 6.48% of the members), each acting autonomously through contract.

The current alignment of the regions is listed on the back side.
